The isolation is affecting landline 9-1-1 services only. The Public Safety Answering Point (PSAP) is operational. California Unified Emergency Association (CUEA) and the Cal OES 9-1-1 Branch have confirmed cellular 9-1-1 services are not affected and the population affected is approximately 308 customers.

- The Cal OES Fire Duty Officer (FDO) and Law Duty Officer (LDO) have confirmed that Mono County and Coleville residents are safe and that the fire is moving away from Coleville into Nevada.
- Per the Cal OES Southern Duty Officer (SDO), Mono County has made no request for state assistance at this time.
- At 2148 hours, Cal OES 9-1-1 Branch advised that damage to the fiber, copper and poles in Coleville is more severe than anticipated.
- Technicians will continue to work through the weekend with an estimated restoral timeframe of Monday, 09/11/17.
- If the status of either landline or cellular service should change, Cal OES 9-1-1 Branch will be notified immediately.
- The CSWC made notifications per SOP.
- Cal OES Duty Officers have been advised and will continue to monitor.

WEATHER SYNOPSIS BY REGION

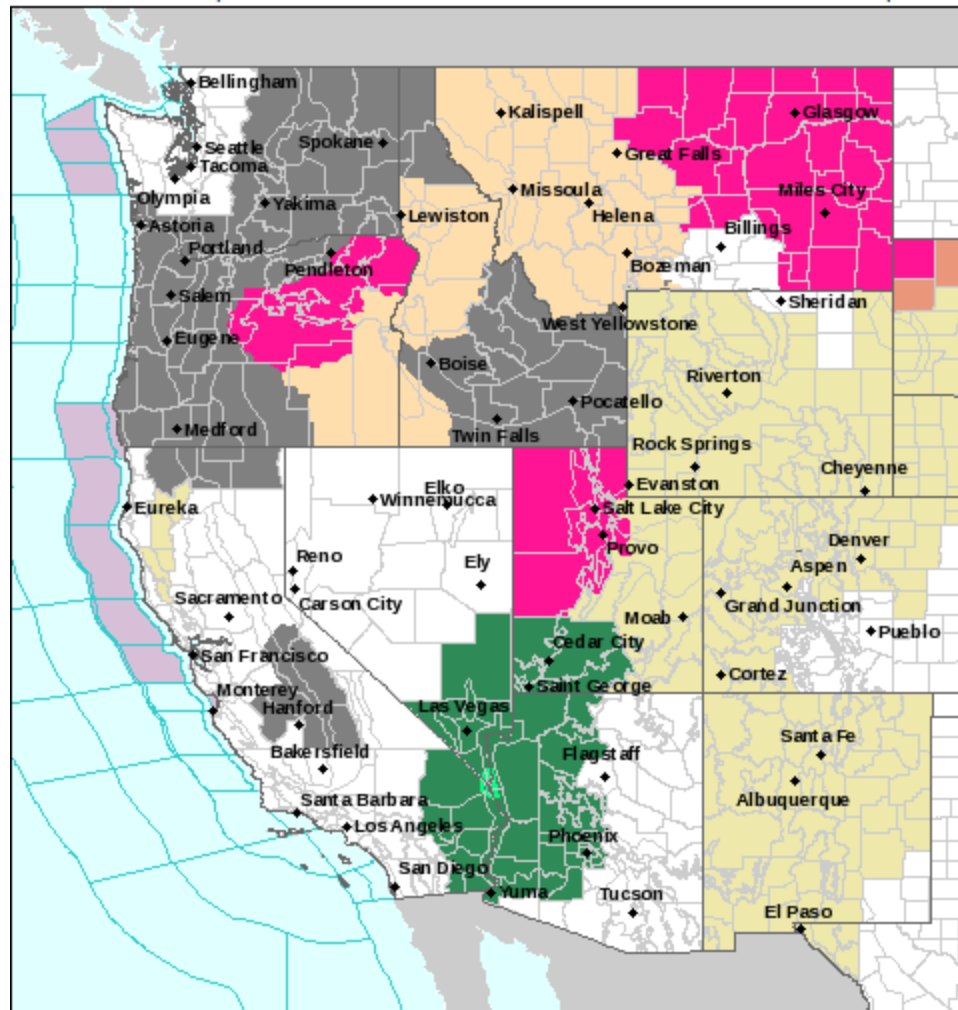

NORTHERN CALIFORNIA

Isolated to scattered showers and wet thunderstorms are expected mainly over higher terrain today. Outflow winds from storms could gust to 40 mph or more, while general winds will be southeast-southwest with gusts to 20-25 mph in open areas each afternoon. This weekend looks warmer and drier with light offshore winds as high pressure returns, but more thunderstorms are expected early next week.

SOUTHERN CALIFORNIA

Onshore flow will strengthen today which will lead to breezy conditions in a few places this afternoon and evening. This morning, local north winds of 10-20 mph will be possible in southern Santa Barbara County. Look for more widespread stratus this morning. But by afternoon, southerly winds will transport additional monsoonal moisture into the area. This will likely lead to widespread wet thunderstorms over the eastern deserts through the weekend. Scattered wet thunderstorms will return to the Cleveland and San Bernardino National Forest and the Kern County Mountains today before spreading northward into the Sierras over the weekend. The storms will all be capable of producing brief heavy rain. There is a chance a handful of storms may reach the central coast and the Los Padres National Forest Sunday or Monday. Temperatures early next week are expected to climb toward 100 in the valleys. Relative humidity (RH) minimums should remain above 20% over most areas and winds will be light across the entire area today and beyond. Cooler weather with fewer storms may develop by the middle of next week.
